## Shift “Capitalizes” on Opportunity

Shift is a non-profit program that gets computers into the hands of those who may not otherwise have the opportunity, as a reward for perseverance, keeping the

George F. Johnson legacy alive, of empowerment for the common man.

Students from Broome Community

College recondition donated computers to that are then awarded to graduating seniors who are the first to Graduate in their family and are going on to secondary education; are the first to go on to secondary Education in their family, or have struggled through extreme adversity or illness to graduate and are going on to secondary education.

Secondary education means enrollment in a college, university, community college, vocational certificate program, or military service. School Social workers usually make a referral to the Shift program, but anyone can obtain an application by calling numbers listed here.

Shift is a collaborative effort between BCC College, the NYS Service Learning Cooperative, and the GFJ Dream Center

The George F. Johnson Dream Center is an incubator for Community Empowerment in Johnson City New York to “Keep the Johnson family legacy Alive” for present and future generations. As loud voices clamored about the injustices of his day, George F. Johnson quietly began a revolution. His secrets to success, based on his faith, his concern for the common man, his love for his country, and his belief in goodwill helped change a nation. Through his leadership, the eight-hour day, five day work week, a fair wage and benefits became a reality in his part of the world, and then something funny happened; it became a reality across the nation. The Dream Center believes that every person has been given the potential to do great things— that a dream has been placed in the heart of every individual of how they can make the world a better place. The Dream Center points the way. Get involved. Make a difference that matters.
